

DEAR RESIDENTS OF UNINCORPORATED LAKE VILLA TOWNSHIP,

As part of the residential solid waste and recycling contract, Waste Management will now provide a convenient way for you to dispose of your Household Hazardous Waste (HHW) and Electronics safely and responsibly.

Beginning January 1, 2012, At Your Door Special CollectionSM will be available to residents of unincorporated Lake Villa Township to provide year-round HHW and Electronics collections.

HOW DOES IT WORK?

1. To participate, you must contact the Call Center (1-800-449-7587) to set up a collection appointment

The Call Center operators will determine the type and amount of materials you have available for collection. A HHW Kit will be sent to your home with instructions on how to gather and pack the materials. Then a convenient collection date will be set for your materials to be picked up at your home.

2. Preparing for collection

The HHW Kit includes detailed instructions on how to pack and secure household hazardous waste. Materials like paint, aerosols, garden chemicals and household batteries must be placed inside the kit. Other items like vehicle batteries may be placed outside the kit.

3. HHW and electronic materials are collected

On the scheduled date, your materials will be collected directly from your home. Materials will be packed properly by the technician for safe transportation, recycling and disposal.

4. You have more material than will fit into the kit

Don't worry! This pick-up service is unlimited and available year-round. Our Call Center will be happy to explain options around combining smaller quantities with neighbors.

Acceptable Items that MUST be placed inside the Kit Bag		Items which may be placed OUTSIDE the Kit Bag (No other waste allowed)	
		Material:	Maximum Amount:
Garden Chemicals, insecticides	Thermometers	Vehicle Batteries	Up to 4
Kerosene	Household Batteries	Fluorescent Tubes	Up to 10
